

PHMC CARE CLINIC

a PHMC program

Easy Access to Total Care for You and Your Family

The PHMC Care Clinic is a Federally Qualified Health Center that provides quality community-based primary care to adults requiring specialized health care, including HIV/AIDS, Hepatitis C treatment, and family planning. PHMC Care Clinic also provides evaluation of mental health concerns, patient education courses and connection to health care specialists. Substance abuse medication (Suboxone, Vivitrol) is also available in addition to peer support and case management for specific populations. The PHMC Care Clinic has a friendly bilingual staff and interpretation services available. PHMC Care Clinic is a Patient-Centered Medical Home.

Our health care services include:

- Adult and pediatric primary care
- Family planning services
- Women's healthcare services
- HIV and Hepatitis C testing, counseling, and treatment
- Peer recovery services, referral navigation, health insurance assistance
- Behavioral health and trauma informed consultation services
- Clinical social workers
- Health and nutrition counseling
- Immunizations and flu shots
- Management of chronic health conditions including diabetes, hypertension, asthma and others
- Medical case management
- Addiction medicine
- Social services assistance (SNAP, housing, insurance, utilities, legal etc.)

The PHMC Health Care for the Homeless program provides high-quality, trauma informed, patient-centered care for men, women and children experiencing homelessness and those at risk of homelessness. The program is coordinated with PHMC's Mary Howard Health Center and the entire PHMC health network, providing primary and behavioral health care and comprehensive social services to meet the complex needs of this vulnerable population.
